SUMMARY

Shipping and Chartering student at Hochschule Bremen with practical experience in tanker shipping and chartering support at German Tanker Shipping. Hands-on exposure to vessel data, emissions reporting, and commercial shipping workflows, with a strong interest in chartering, market analysis, and shipbroking. Detail-oriented, commercially minded, and focused on building a long-term career in the maritime industry.

PROFESSIONAL EXPERIENCE

Chartering Werkstudent

German Tanker Shipping GmbH & Co. KG, Bremen | 03.2026 – present

-Support commercial chartering activities through accurate handling of vessel and emissions data
-Maintain and update vessel information in internal digital systems
-Contribute to the preparation and organization of data relevant to shipping operations and commercial decision-making
-Assist in ensuring reliable internal data quality across chartering-related workflows
-Gain hands-on exposure to tanker shipping, commercial processes, and market-oriented operations

Production Logistics Werkstudent

Mercedes-Benz / via DEKRA, Bremen | 05.2026 – 08.2025

-Supported internal vehicle flow by transporting finished vehicles to assigned parking and processing areas
-Did the final confirmations of vehicle positions before they are sent outside the factory via rail/truck
-Worked within structured operational processes while following safety and quality standards
-Contributed to efficient handling of high-value vehicles in a large-scale production environment
